FUEL

At sea with reefer cargo 1414gal or 4.82 M/T. per day.

At sea without reefer cargo 1209gal or 4.12M/T per day

In port with reefer cargo 410gal or 1.4M/T per day.

In port without reefer cargo 210gal or 0.7M/T per day.

On the 28 Feb 2008 received 7,500gal fuel.

29 Feb - 9 Mar = 10days in port with out reefer cargo

10days X 210gal per day = 2,100gal

7,500gal - 2,100gal = 5400gal

10 Mar - 13 Mar = 4days in port with reefer cargo

4days X 410gal per day = 1640gal

5,400gal - 1,640gal = 3,760gal

Fernandina to Haiti= 4days at sea with reefer cargo

4days X 1414gal per day= 5,656gal

In port Haiti = 7days with reefer cargo

7days X 410pre day = 2,870gal

Haiti to Fernandina = 4days at sea with out reefer cargo

4day X 1209gal per day= 4,836gal

So to make the trip we need 13,362gal on the 13 Mar we will have 3,760 onboard.

13,362gal - 3,760gal = 9,602gal = 9,602gal To make trip we will still 9,602gal.
